

# AlarmBiller Release Notes

June 2023

Hotfix version 4.45.1

**AlarmBiller**<sup>®</sup>

---

## **Application Corrections**

### **AlarmBiller**

Resolved Issues
<p><b>Proposal not converting to work order</b></p> <p>We resolved an issue with converting a proposal to a work order. Closing a proposal was automatically creating an invoice instead of giving the option to choose work order or invoice.</p>
<p><b>RMR item(s) on proposals are not populating info since last release</b></p> <p>We resolved an issue with item details not automatically populating on proposals as expected.</p>
