

# Sedona-X Mobile Release Notes

May 2024

Version 1.6.17

**Contents**

- Application Corrections .....2
  - SedonaOffice/Sedona-X Mobile .....2
    - Sedona-X Parts issued from incorrect warehouse - over 500 technicians [00099369] .....2
  - Managely/Sedona-X Mobile .....2
    - Appointment Detail Screen Slowness .....2
- Special Upgrade/Install Instructions .....2
- (SedonaOffice) Supported Environments .....2
  - Minimum System Requirements .....2

## **Application Corrections**

### **SedonaOffice/Sedona-X Mobile**

#### **Sedona-X Parts issued from incorrect warehouse - over 500 technicians [00099369]**

We resolved this issue to ensure that parts are issued from the warehouse of the service technician who is currently logged in.

### **Managely/Sedona-X Mobile**

#### **Appointment Detail Screen Slowness**

We improved the speed for the appointment details. The issue was that with an extensive date range, the server was pulling down all the appointments for that date range. Now, we will pull down only the one needed for the appointment.

## **Special Upgrade/Install Instructions**

**Operating System** — iOS devices should be on iOS version 17 and Android devices should be using Android 14 for full compatibility, although earlier versions may be able to support the application. Please check the app store for any updates to your Sedona-X Mobile app.

**SedonaOffice** — SedonaOffice will need to meet the system minimum (below) to support Sedona-X Mobile.

**SedonaWeb/SedonaAPI 2.0** — IT will need to update your SedonaWeb/SedonaAPI 2.0 version to meet the system minimum (below) at the same time as your SedonaOffice version. This is to ensure compatibility with the Sedona-X Mobile app.

## **(SedonaOffice) Supported Environments**

### **Minimum System Requirements**

- SedonaOffice Version 6.2.0.16
- SedonaWeb/SedonaAPI 2.0 Version 1.46.0
- Server (where SedonaWeb/SedonaAPI 2.0 is installed) has Microsoft .NET 4.8 installed
